

Bioregioning:

a 'start anywhere, go everywhere' process.

**START
HERE**

**Where
You
Live**

What are you passionate about?

- Being in nature
- Protecting pollinator pathways
- Citizen science
- Rewilding
- Local food growing
- Sustainable food networks
- Farm-to-table food platforms
- Urban-rural relationship building
- Circular economies
- Green livelihoods
- Sustainable fashion
- Place-regenerating tourism
- Green manufacturing
- Local procurement
- Mapping and measuring
- Localized databank
- Campaigning for governance of common pool resources
- Sustainable fishing
- Sustainable transport
- Recovering skills
- Honouring history
- Conflict resolution

**So you can interact
with where you live
in lots of new ways**

Discovering
Potential

**Join others who also
have know-how**

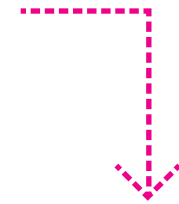

**Find examples of
positive change
in your area and
beyond**

**Which go
everywhere!**

From protecting
what is to
pursuing what
could be

**What happens
when you start to
join the dots and
find patterns?**

**You start to
see human and
natural systems
together**
