The Bioregional Conversations

May-July 2024

1. Isabel Carlisle of the [South Devon Bioregion](#) in conversation with Scotland-based colleagues Elle Adams in the [Findhorn Watershed](#) and Clare Cooper of [Bioregioning Tayside](#). *May 7, 2024*
2. Melina Angel of [Colombia Regenerativa](#) in conversation with Latin American colleagues Juan José López (Córdoba, Colombia) and Alexis Catalán Caniulef (Wallmapu, Chile). *May 21, 2024*
3. [John Thackara](#) in conversation with Irish colleagues Brendan Dunford of [Burrenbeo Trust](#) and Chris Chapman of the [Burren College of Art](#) plus French colleague, Jan Boelen, at [Atelier Luma](#), Arles. [Notes from John Thackara](#). *June 4, 2024*
4. Stuart Cowen, CEO of the [Buckminster Fuller Institute](#), in conversation with Lawrence Grodeska of the [Bay Delta Trust](#) (San Francisco Bay, USA) and Brandon Letsinger of [Regenerate Cascadia](#) (Pacific Northwest, USA). *June 18, 2024*
5. Udi Mandel of the [Enlivened Cooperative](#) in Hawaii in conversation with Juan Manuel Crespo of the [Amazon Sacred Headwaters Initiative](#) and Noa Lincoln, Assistant Professor of Indigenous Crops and Cropping Systems, [University of Hawai'i Manoa](#). *July 2, 2024*
6. Erika Zarate of the [Resilience Earth Coop](#) in Catalonia in conversation with [Daniel Christian Wahl](#) (Mallorca) and Oscar Gussinyer of La Garrotxa Bioregion, Catalonia. *July 16, 2024*
7. Eduard Muller of [Costa Rica Regenerativa](#) in conversation with [Edgar Mora](#), former mayor of Sweet City, Costa Rica and Nicolas Rotundo of the Diamante Valley bioregion in Costa Rica. *July 30, 2024*

Recordings of all the conversations are available on the Bioregional Learning Centre website, bioregion.org.uk. Spanish version of Conversation 2 is [here](#). Para la versión en español haz clic [aquí](#).

The Bioregional Conversations is an action-learning initiative exploring how to help bioregions emerge and evolve.

Coming together in a series of seven cutting-edge conversations to explore the different ways in which bioregioning is taking shape around the world, this small circle of leading bioregional practitioners intends to deepen the learning culture developing around bioregions internationally.

The conversations touch on how to set up a funding ecosystem for a bioregion, how to engage in landscape-scale visioning, decision-making and action, how to work with existing power structures, how to include the spiritual and indigenous ways of inhabiting earth in this work, and much more.

Learnings from these conversations are now informing the design and development of a bioregioning course, catalyse the formation of a peer-to-peer learning community and inspire new bioregions.

To express interest in this course, contact Isabel Carlisle, isabel.carlisle@bioregion.org.uk.
